

D. Barlow Clark-Schoeb

Operations · Design · Prototyping

dbarlow2004@gmail.com · (908) 666-2847 · linkedin.com/in/barlow-clark-schoeb-0348108a · Relocating to New York, NY — available September 2026

Builder and problem-solver who thrives in fast-moving, unfamiliar environments. Currently at a medical robotics startup running operations, fabricating prototypes, and project-managing a company-critical FDA 510(k) submission. Moves fluidly between hands-on construction, CAD/prototyping, and cross-functional project management — bridging technical and non-technical teams to get things built.

EXPERIENCE

Operations, Design & Prototyping Associate — ENDIATX (medical robotics), Hayward, CA Summer 2026 – Present

- Serve as project manager for a company-critical FDA 510(k) submission — coordinating engineering, regulatory, and operations teams, tracking milestones, and proactively surfacing and resolving blockers to keep the regulatory timeline on schedule.
- Leading a full office and warehouse transformation, from cross-departmental workflow interviews through final construction, converting the space into a professional, investor-ready environment.
- Built a conference room end-to-end from an unused space: framing, insulation, drywall, painting, and finish carpentry.
- Designed an anatomical stomach model in SolidWorks and 3D-print iterative prototypes to support medical device testing; researched silicone materials, designed molds, and fabricated silicone prototypes across multiple engineering iterations.
- Reorganized warehouse inventory, retired obsolete equipment, and manage procurement and vendor coordination; design and fabricate company signage and office infrastructure using AutoCAD, laser cutting, and 3D printing.

Environmental Reporting Intern — The Active Voice, Connecticut Spring 2026

- Researched and reported on sustainability, climate policy, and environmental issues for publication; drafted legislative testimony materials and sustainability-focused communications.
- Partnered with leadership on environmental storytelling and public engagement initiatives.

Social Media & Operations Assistant — Babka Bailout, New York, NY Winter 2024 – 2026

- Managed packaging, customer engagement, and day-to-day operational logistics at the Bryant Park Holiday Market.
- Produced social media content, including TikTok and promotional campaigns, driving brand growth through visual storytelling.

EDUCATION

B.A. Environmental Studies & B.A. Spanish — University of Connecticut, Storrs, CT May 2026

Athletic Director's Honor Roll · NCAA Division I Athlete, Women's Lacrosse

Design Discovery Program — Harvard University Graduate School of Design Summer 2025

Study Abroad, Spanish Language & History — University of Salamanca, Spain Summer 2024

SKILLS

CAD & Prototyping: SolidWorks, AutoCAD, Rhino, 3D printing, laser cutting, silicone mold fabrication
Project Management: cross-functional coordination, scheduling, procurement, vendor management
Fabrication: framing, drywall, painting & finishing
Design & Software: spatial planning, workplace design, Adobe Illustrator/Photoshop, MS Office, Google Workspace
Languages: Spanish (fluent), ASL (intermediate)
Certification: LEED Green Associate (in progress)

LEADERSHIP — UCONN WOMEN'S LACROSSE

Community Service Board, President: led team-wide service initiatives and equipment donation programs
Leadership Committee: partnered with team leaders on culture and accountability systems
Social Issues Board: organized discussions and awareness events
